

## **Seafarers' International Union of Canada COVID-19 Taskforce Update November 5, 2020**

### SIU Covid-19 Taskforce

Chair: Josh Sanders, Vice-President Great Lakes and West Coast  
Members: Charles Aubry, Vice-President St. Lawrence and East Coast  
Chris Given, Director of Government Relations  
Paul Macdonald, HQ Representative (Thorold)  
Philippe Marchand, HQ Representative (QC)

Welcome to this week's communications update from the SIU's COVID-19 taskforce. The SIU's taskforce has met regularly since the start of the Pandemic in March 2020 and with the onset of the "Second Wave" and some instances of misinformation being shared by the Companies, has made the decision to share information on a weekly basis to keep SIU members up-to-date with current information as well as provide a straight line of communication so that the Union can provide you with our direct perspective and opinions on issues of concern such as shore leave, shipboard protocols, etc.

### I. Overview

As of November 4, 2020, the situation across Canada is as follows:

- 244,935 total cases (+24,722 since last week's update)
- 31,147 active cases (+5,213 since last week's update)
- 10,279 deaths (+306 since last week's update)

In the most recent COVID-19 weekly Epidemiology report issued by the Public Health Agency of Canada (PHAC), the Agency noted there was an average of 2,552 new daily cases reported. New cases were reported in all provinces and territories with the exception of Nunavut, with British Columbia, Alberta and Saskatchewan seeing the biggest percentage increase in number of cases.

The report also outlined that:

- since mid-July, incidence rates in those 20 to 39 years of age have remained consistently higher than all other age groups;

200 – 1333 rue St-Jacques, Montreal, Quebec, H3C 4K2  
T (514) 931-7859 F (514) 931-3667

- Long-term care/retirement residences and schools/childcare centres accounted for the highest number of outbreaks for the month of October.

The Government of Ontario unveiled its new plan of proposed measures for how the province will move forward with tackling the coronavirus pandemic, which states that close contact is the highest risk of transmitting the virus, and implements a new framework for indicator levels which will be implemented in all municipalities across the province. The following levels were used: Prevent (standard measures — green), protect (strengthened measures — yellow), restrict (intermediate measures — orange), control (stringent measures — red), and lockdown (maximum measures — grey).

In Manitoba, the provincial government is considering implementing a mandatory curfew for all citizens in order to get a better handle on the pandemic.

## II. The SIU's role in other COVID-19 related Groups

Your Union is involved in every high-level discussion taking place with regards to the marine sector and Transport Canada as well as communicating regularly with all of the Companies and union delegates to ensure best practices and information are shared as needed during these difficult times.

The SIU Continues to participate in all high-level meetings taking place with the Federal government related to COVID-19 and the marine industry. On November 2<sup>nd</sup>, the opening plenary for the National Canadian Marine Advisory Council or "CMAC" took place. For the first time, Transport Canada is hosting this important forum entirely virtually. Meetings are taking place throughout the first two weeks of November to discuss domestic maritime issues across the sector, from marine security to personnel and a great deal of the discussion will be surrounding COVID-19 and the impact on shipping and seafarers. We will provide updates from these meetings in the weekly updates to follow.

### III. COVID-19 Cases on SIU Vessels

As of November 4, 2020, the situation on board is as follows:

- 0 Vessels Currently Dealing with Active Cases
- 4 Vessels with Cases on Board Resolved and Returned to Operation
- 11 Confirmed Cases since Pandemic Started
  - 1 Active Case\*
    - 1 Member Tested Positive While on STO prior to Re-Joining
- 9 Resolved Cases
- 1 Deceased

This week, we received news of the tragic passing of Chief Cook Renato Battisti after a battle with COVID-19 that was contracted while at sea. Brother Renato was a proud SIU Member and he will be missed by many, including his family, his crewmates on board the Damia Desgagnes, and all of us here at the SIU of Canada. Our deepest condolences go out to his loved ones during this difficult time. Rest in Peace Brother. You will always be remembered as a true COVID hero.

**If you are feeling unwell – please immediately alert your direct supervisor and the Captain of the vessel** so that the proper precautions can be taken. It may not be a COVID-19 exposure, but all risks must be mitigated to ensure the health and safety of yourself and the rest of the crew. When a case occurs, the SIU has worked to ensure that members are isolated, receiving medical care and provided with support to ensure the process is as stress-free as possible.

If there is a situation occurring on board your vessel that you feel compromises your health or safety (breach of COVID-19 Company protocols, lack of PPE, unsafe visitors on board, etc.), please communicate these incidents to your ship’s Union Delegate who can get in touch with a

T (514) 931-7859 F (514) 931-3667

local SIU official. If the situation requires immediate attention, do not hesitate to contact the Union ASAP.

As the SIU has now had the unfortunate experience of dealing with COVID-19 on board a few vessels, we are compiling data and protocols from various responses to positive incidences in order to share best practices amongst the Companies and ensure protocols for dealing with COVID-19 on board the vessels are up-to-date and adequate to ensure our members health and safety remains the top priority.

#### IV. SIU's Position on Shore Leave

As the situation with COVID-19 evolves rapidly, there is significant consideration and evaluation of available information happening every day. Obviously, the safest place to be when you are working is on board the vessel. We strongly encourage members to restrict shore leave as much as possible and to take advantage of Company ordering systems where possible.

However, the SIU does recognize the importance of shore leave, especially for seafarers' health and mental well-being. In Ports where the risk of exposure remains relatively low, the SIU remains in support of permitting shore leave when it is requested by a member.

If you choose to disembark from the vessel to take shore leave, please ensure:

- You follow your Company's protocols for shore leave requests and for reducing the risk of exposure.
- Wear the proper PPE (mask, gloves, etc. as needed)
- Maintain good hand and respiratory hygiene (Wash hands frequently, use hand sanitizer, cough or sneeze into a tissue or the bend of your arm. Avoid touching eyes, nose or mouth)
- Practice Social distancing (Remain at least 6m apart from any other person)
- Limit social Contact (avoid closed spaces, crowded spaces and close contact)
- Follow local and/or Provincial public health guidelines for the area you are visiting.

#### V. Restrictions on Shore Leave

Shore leave can be an important element for ensuring seafarers' health and well-being. The SIU does not support any full bans on shore leave. The SIU has agreed to support shore leave restrictions in the following ports only\* (as of November 4, 2020):

- All U.S. Ports

**Seafarers' International Union of Canada**  
200 – 1333 rue St-Jacques, Montreal, Quebec, H3C 4K2  
T (514) 931-7859 F (514) 931-3667

- Clarkson (Peel Region)
- Port of Toronto
- Port of Hamilton
- Port of Montreal
- Port of Quebec
- Côte-Sainte-Catherine
- Bécancour
- Valleyfield
- Trois-Rivières
- Sorel

\*Please keep in mind that some Ports may be unavailable for shore leave based on local or Provincial restrictions outside of anyone's immediate control (Atlantic Bubble, Restricted Zones for inter-regional travel, etc.)

This list is subject to change at any time to reflect updated information as determined by local public health agencies and at the discretion of the SIU. Please be advised that the situation in certain areas (Niagara region, etc.) are being closely monitored as COVID-19 cases are trending upwards.

**If you request shore leave and are denied shore leave in any Port that is not listed above,** please immediately inform your ship's delegate and contact the Union so that a Grievance may be filed. Please make sure to document the instance (Location, time, reason for going ashore, reason given for denial, etc.) as the Union will require this information for the grievance process.

#### **VI. Members Who are at Home or Returning to Work**

Please ensure that you are following public health recommendations and doing your part to mitigate the possibility of exposing yourself or your families to COVID-19 when you are at home and not working. If you are planning for a return to work, or you are sailing as a relief or any other position where returning home regularly, all measures must be taken to ensure COVID-19 is not brought back to your vessel and that you are in good health when joining.

The SIU **recommends** that all members returning to a vessel from STO, or joining a vessel as a relief, wear a non-medical mask for their first 14 days after returning to the vessel in order to better protect your fellow crew members from any potential exposure to COVID-19.

**Seafarers' International Union of Canada**  
200 – 1333 rue St-Jacques, Montreal, Quebec, H3C 4K2  
T (514) 931-7859 F (514) 931-3667

For information on non-medical face coverings and proper use, please visit the link:  
<https://www.canada.ca/en/public-health/services/publications/diseases-conditions/covid-19-safely-use-non-medical-mask-face-covering.html>

Most companies will require you to complete a COVID-19 Questionnaire about your current health, contact and travel history prior to boarding when joining a vessel. **Please complete these questionnaires truthfully as otherwise you are putting the health of your crewmates in jeopardy. If your health changes after boarding the vessel, please alert a supervisor immediately so that proper precautions can be taken to ensure your health and protect your brothers and sisters on board.**

#### VII. International Shipping Issues

Globally, there are upwards of one million seafarers being affected by the ongoing and unresolved crew change crisis that has gripped the worlds' seafarers. Hundreds of thousands of seafarers have been stuck at sea for upwards of 18+ months, well past the maximum time permitted under the Maritime Labour Convention of 11 months at sea. At the same time, hundreds of thousands of other seafarers have been stuck on the beach, unable to join vessels or secure employment and are suffering terrible economic situations in their respective countries as a result.

In September 2020, the ITF Maritime Safety Committee released a report entitled "Beyond the Limit", outlining how COVID-19 corner-cutting was putting too much risk in the international shipping system. The report outlines the numerous safety and regulatory dangers that have come about from the Pandemic and what National Unions need to do to rectify some of these major concerns:

<https://www.itfglobal.org/sites/default/files/node/news/files/ITF%20MSC%20Report%20September%202020%20Beyond%20the%20limit%20v8.pdf>

The SIU continues to play an active role in the ITF and through our work in the ILO and IMO and we continue to call on nations and organizations to designate seafarers as key workers, facilitate crew changes and open borders for marine sector workers who continue to keep global supply chains working all while enduring tremendous personal suffering. Enough is Enough.

For updates on the situation, please visit the ITF website:
