

# SIU COVID-19 TASKFORCE UPDATE

## Seafarers' International Union of Canada COVID-19 Taskforce Update February 12, 2021

SIU COVID-19 Taskforce

Chair: Josh Sanders, Vice-President Great Lakes and West Coast  
Members: Charles Aubry, Vice-President St. Lawrence and East Coast  
Chris Given, Director of Government Relations  
Paul Macdonald, HQ Representative (Thorold)  
Philippe Marchand, HQ Representative (QC)

Welcome to the most recent communications update from the SIU's COVID-19 taskforce. The SIU's taskforce has met regularly since the start of the Pandemic in March 2020 and with the onset of the "Second Wave" and some instances of misinformation being shared by the Companies, has made the decision to share information whenever necessary to keep SIU members up-to-date with current information as well as provide a straight line of communication so that the Union can provide you with our direct perspective and opinions on issues of concern such as shore leave, shipboard protocols, etc.

### I. Overview

**As of February 9, 2021, the situation across Canada is as follows:**

- 810,797 total cases (+53,775 since last update)
- 39,179 active cases (-20,372 since last update)
- 20,909 deaths (+1,506 since last update)

In the most recent COVID-19 daily Epidemiology report issued by the Public Health Agency of Canada (PHAC), the Agency noted the majority of cases have been reported by Ontario and Quebec. In the 7 days up to February 9, 2021, Ontario reported 9,569 cases compared to 16,423 cases reported in our previous update. In the same 7 day period, Quebec reported 7,211 cases compared to 10,268 cases reported in our previous update. These numbers continue to decrease, trending similar to what was reported in our last taskforce update, which can be attributed to the strict lockdown measures that have been in place in both provinces.

# SIU COVID-19 TASKFORCE UPDATE

British Columbia, which has done a good job at limiting the spread of COVID-19 in the province, has recorded just over 3,000 cases over the past 7 days. Both Ontario and Quebec are either preparing, or have already begun, easing restrictions and lockdown measures in some regions, but hopefully the number of COVID cases can continue to trend in the right direction.

The report also outlined that:

- The report states that of all tests administered (22,402,593) 3.8% have been found to be positive for COVID-19.
- The majority of cases are still being seen in the 20-29 age group at 18.7% of cases, while those in the above 80 age group are more likely to have more serious symptoms, with a 33.5% hospitalization rate.
- Importantly, it must be noted that infections, hospitalizations and deaths have been reported in every single age group, including in children.

As of February 8, 2021, the Government of Quebec has allowed the reopening of Quebec businesses, museums and hair salons, among other things, as the province begins to loosen the current restrictions in place to fight against the spread of COVID-19. The province did say, however, that a curfew will remain in place for the time being, which bars individuals from non-essential travel outside the home between 8:00pm and 5:00am. The Premier of Quebec, Francois Legault, also stated that some businesses, such as gyms and movie theatres will still not be opening in 'red zones', of which there are currently 11 regions in the province.

Also on February 8, 2021, the Government of Ontario announced that the province will slowly begin reopening some businesses shortly, which will include non-essential retailers to be open at limited capacity, whenever the stay-at-home orders are lifted. Ontario has been in a province-wide lockdown since December 26, 2020, but the province will apparently now be going back to the colour coded framework for each region. Three regions have moved into 'green' as of Wednesday, February 10, 2021, while the stay-at-home order will remain in place until at least February 16 for all other regions. At that time, the stay-at-home order could be lifted in 28 more public health units, depending on the COVID-19 trends at the time. Toronto, Peel and York regions will be subjected to the stay-at-home order until at least February 22, according to the government.

# SIU COVID-19 TASKFORCE UPDATE

On February 5, 2021, the Government of B.C. announced that COVID-19 restrictions in the province would continue with no end date. While British Columbia has not had to implement the lockdown measures most recently seen in Quebec and Ontario, the province has restricted social contact to members of your immediate household, and has banned all public events and in-person religious gatherings. The province has stated that there is a chance some of these measures are scaled back in March, but it will be entirely dependent on how the case numbers are trending.

With some parts of the country beginning to reopen, we want to remind Members of the SIU of Canada to remain vigilant, stay safe, wear a mask and take care of your families. While we are thankful that the restrictions that were in place helped bring the number of cases back down across the country, there is no doubt that once these measures are lifted, the number of cases will again begin to rise, so to this end, please stay safe and stay healthy.

## II. The SIU's role in other COVID-19 related Groups

Your Union is involved in every high-level discussion taking place with regards to the marine sector and Transport Canada as well as communicating regularly with all of the Companies and union delegates to ensure best practices and information are shared as needed during these difficult times.

SIU officials participated in a "Focused Engagement Session" with industry stakeholders hosted by Transport Canada regarding interim orders in place concerning COVID-19 in the marine sector.

# SIU COVID-19 TASKFORCE UPDATE

The restrictions that were in place to restrict pleasure craft and cruise vessels carrying over 100 passengers was extended to February 28, 2022. The restrictions, which were set to expire on February 28, prohibit pleasure craft in Canadian Arctic waters and cruise vessels carrying more than 100 passengers in all Canadian waters.

The SIU of Canada has requested information from Transport Canada on the issue of validity periods for seafarers' certificates. Seafarers' Certificates with an expiration date between October 2019 and March 2021 were extended to March 31, 2021, however no additional extension has so far been granted. We continue to work with and press Transport Canada to ensure these deadlines continue to get extended as needed and the SIU continues to seek more information regarding the availability of courses, particularly for those employed on vessels requiring an MED refresher in order to remain compliant with the STCW 2010 Manila Amendments.

Although certificates are being extended until March 31, 2021, we encourage any seafarer seeking to renew their certificate of competency to do so.

You simply need to follow these 2 easy steps:

- Scan the relevant pages of your discharge book and signed testimonials, if applicable; and
- Send the scanned information by email to your local Transport Canada Marine Examination Centre.

# SIU COVID-19 TASKFORCE UPDATE

## III. COVID-19 Cases on SIU Vessels

As of February 11, 2021, the situation on board is as follows:

- 0 Vessels Currently Dealing with Active Cases
- 4 Vessels with Cases Previously on Board - Resolved and Returned to Operation
- 11 Confirmed Cases since Pandemic Started
  - 0 Active Cases
  - 10 Resolved Cases
  - 1 Deceased

**If you are feeling unwell – please immediately alert your direct supervisor and the Captain of the vessel** so that the proper precautions can be taken. It may not be a COVID-19 exposure, but all risks must be mitigated to ensure the health and safety of yourself and the rest of the crew. When a case occurs, the SIU has worked to ensure that members are isolated, receiving medical care and provided with support to ensure the process is as stress-free as possible.

If there is a situation occurring on board your vessel that you feel compromises your health or safety (breach of COVID-19 Company protocols, lack of PPE, unsafe visitors on board, etc.), please communicate these incidents to your ship's Union Delegate who can get in touch with a local SIU official. If the situation requires immediate attention, do not hesitate to contact the Union ASAP.

As the SIU has now had the unfortunate experience of dealing with COVID-19 on board a few vessels, we are compiling data and protocols from various responses to positive incidences in order to share best practices amongst the Companies and ensure protocols for dealing with COVID-19 on board the vessels are up-to-date and adequate to ensure our members health and safety remains the top priority.

## IV. SIU's Position on Shore Leave

As the situation with COVID-19 evolves rapidly, there is significant consideration and evaluation of available information happening every day. Obviously, the safest place to be when you are working is on board the vessel. We strongly encourage members to restrict shore leave as much as possible and to take advantage of Company ordering systems where possible.

# SIU COVID-19 TASKFORCE UPDATE

However, the SIU does recognize the importance of shore leave, especially for seafarers' health and mental well-being. In Ports where the risk of exposure remains relatively low, the SIU remains in support of permitting shore leave when it is requested by a member.

If you choose to disembark from the vessel to take shore leave, please ensure:

- You follow your Company's protocols for shore leave requests and for reducing the risk of exposure.
- Wear the proper PPE (mask, gloves, etc. as needed)
- Maintain good hand and respiratory hygiene (Wash hands frequently, use a Health Canada approved hand sanitizer, cough or sneeze into a tissue or the bend of your arm. Avoid touching eyes, nose or mouth)
- Practice social distancing (Remain at least 2 metres apart from any other person)
- Limit social contact (avoid closed spaces, crowded spaces and close contact)
- Follow local and/or Provincial public health guidelines for the area you are visiting.

## V. Restrictions on Shore Leave

Shore leave can be an important element for ensuring seafarers' health and well-being. The SIU has agreed to support shore leave restrictions in the following ports only, as a result of recent lockdown conditions across the country\* (as of February 11, 2021):

- All U.S. Ports
- All Quebec Ports
- All Ontario Ports

\*Please keep in mind that some Ports may be unavailable for shore leave based on local or Provincial restrictions outside of anyone's immediate control (Atlantic Bubble, Restricted Zones for inter-regional travel, etc.)

This list is subject to change at any time to reflect updated information as determined by local public health agencies and at the discretion of the SIU. Please be advised that the situation in certain areas are being closely monitored as COVID-19 cases are trending upwards and changes may need to be made quite rapidly.

**If you request shore leave and are denied shore leave in any Port that is not listed above,** please immediately inform your ship's delegate and contact the Union so that a Grievance may

**Seafarers' International Union of Canada**

T (514) 931-7859 F (514) 931-3667

# SIU COVID-19 TASKFORCE UPDATE

be filed. Please make sure to document the instance (Location, time, reason for going ashore, reason given for denial, etc.) as the Union will require this information for the grievance process.

## VI. Members Who are at Home or Returning to Work

Please ensure that you are following public health recommendations and doing your part to mitigate the possibility of exposing yourself or your families to COVID-19 when you are at home and not working. If you are planning for a return to work, or you are sailing as a relief or any other position where returning home regularly, all measures must be taken to ensure COVID-19 is not brought back to your vessel and that you are in good health when joining.

The SIU **recommends** that all members returning to a vessel from STO, or joining a vessel as a relief, wear a non-medical mask for their first 14 days after returning to the vessel in order to better protect your fellow crew members from any potential exposure to COVID-19.

For information on non-medical face coverings and proper use, please visit the link:  
<https://www.canada.ca/en/public-health/services/publications/diseases-conditions/covid-19-safely-use-non-medical-mask-face-covering.html>

Most companies will require you to complete a COVID-19 Questionnaire about your current health, contact and travel history prior to boarding when joining a vessel. **Please complete these questionnaires truthfully as otherwise you are putting the health of your crewmates in jeopardy. If your health changes after boarding the vessel, please alert a supervisor immediately so that proper precautions can be taken to ensure your health and protect your brothers and sisters on board.**

## VII. International Shipping Issues

Globally, there are upwards of one million seafarers being affected by the ongoing and unresolved crew change crisis that has gripped the worlds' seafarers. Hundreds of thousands of seafarers have been stuck on board well past the maximum time permitted under the Maritime Labour Convention of 11 months at sea. At the same time, hundreds of thousands of other seafarers have been stuck on the beach, unable to join vessels or secure employment and are suffering terrible economic situations in their respective countries as a result.

**Seafarers' International Union of Canada**  
200 – 1333 rue St-Jacques, Montreal, Quebec, H3C 4K2  
T (514) 931-7859 F (514) 931-3667

# SIU COVID-19 TASKFORCE UPDATE

On January 26, 2021 the ITF alongside over 300 industry and human rights leaders in the marine transportation sector signed the *Neptune Declaration*. This is a new global pledge with a focus on resetting expectations and putting accountability on the industry to use their leverage to end the deepening crew change crisis. Signatories include major multinationals like BP, Cargill, Rio Tinto and Shell. Signatories are expected to deliver on a shared responsibility to resolve the crisis, an initiative led by the Global Maritime Forum.

ITF General Secretary, Stephen Cotton, welcome the commitments of the 327 organizations and companies stating: “The ITF welcomes the commitment from shipowners, charterers, investors, NGOs and industry groups in signing the *Neptune Declaration*, and now there is an expectation that words are turned into action”. The 4 main pillars of the Neptune Declaration are to;

- Recognise seafarers as key workers and give them priority access to COVID-19 vaccines
- Establish and implement gold standard health protocols based on existing best practices
- Increase collaboration between ship operators and charterers to facilitate crew changes
- Ensure air connectivity between key maritime hubs for seafarers

As a result of new strains of COVID-19 being found in several countries including the UK and South Africa that scientists are saying may be more contagious than the original virus, immigration authorities in certain countries like the Philippines are now reimplementing restrictions regarding crew change policies. The Philippines, the world’s leading crewing provider and a top destination for crew changes during the pandemic, has decided to halt crew changes for seafarers who have been in 21 different countries around the world two weeks prior to visiting the Southeast Asian republic.

The SIU continues to play an active role in the ITF and through our work in the ILO and IMO and we continue to call on nations and organizations to designate seafarers as key workers, facilitate crew changes and open borders for marine sector workers who continue to keep global supply chains working all while enduring tremendous personal suffering. Enough is Enough.

For updates on the situation, please visit the ITF website:
